There is great concern amongst the Tameleon Princesses Neve, Samara, Xanthia, Serephina and the Warrior Princess, Princess D'hara. Their brother Thor has stolen the Staff of Aiden and is raining an eternal winter on the Land of Tamelea. Keylor, Keeper of the Staff of Aiden, summons all who wish to save the people and lands of Tamelea, but will the Dramelian Dragons & their gypsy riders help? And what of Lexus, Keylor's sister. Will she support Keylor or has she already moved to the dark side?
